

HENDRIKUS CHRISTIANTO N. OLMEDO

Fullstack Web Developer

Surabaya, Jawa Timur | edonurcahyo25@gmail.com | 0838 5626 2952 | github.com/edonurcahyo | portfolio-hendrikus.vercel.app

PROFESSIONAL SUMMARY

Fresh Graduate in Informatics Engineering (S1), Institut Teknologi Adhi Tama Surabaya (September 2026, GPA 3.51 — Cum Laude), with 6 months of hands on internship experience as a Laravel Web Developer at CV. Agung. Focused on fullstack web development, with backend expertise in Laravel, PHP, and MySQL/MariaDB including REST API design and OOP implementation. Complemented by frontend skills in React.js, JavaScript, TypeScript, HTML5, and CSS, as well as working knowledge of Python. Comfortable working in teams and coordinating with supervisors and end users to ensure systems meet business requirements. Ready to contribute as a Fullstack Web Developer.

WORK EXPERIENCE

Internship — Web Developer CV. Agung, Surabaya | April 24 – October 24, 2025 (6 months)

Laravel · PHP · MySQL · OOP · REST API

- Served as the programmer: developed the backend and application features using the Laravel framework, applied OOP concepts, and designed the MySQL database schema for transaction records.
- Coordinated with teammates handling UI design (Figma) and reporting to ensure the implementation matched the design and business requirements.
- Performed debugging and troubleshooting throughout development to ensure the application ran stably before handover to the company.

EDUCATION

Institut Teknologi Adhi Tama Surabaya (ITATS) Surabaya, Indonesia

B.Eng. in Informatics Engineering | 2022 – August 2026 (Graduated) | GPA: 3.51 / 4.00

PROJECTS

Web-Based Barbershop Reservation Application — Undergraduate Thesis Project

Laravel · PHP · MySQL · OOP · REST API · React · TypeScript

- Designed and built the backend with Laravel (PHP) applying OOP principles, along with a REST API to manage reservation, scheduling, and service data for a barbershop.
- Designed the MySQL database schema and wrote efficient queries to support the reservation process and minimize scheduling conflicts.
- Performed debugging and troubleshooting throughout the development cycle using the Prototype model, from requirements analysis through testing.
- Regularly coordinated with the thesis supervisor and prospective users (barbershop owner) to validate system requirements and refine the booking flow.
- Built the user interface with React and TypeScript to complement the Laravel backend with an easy-to-use booking experience.

TECHNICAL SKILLS

- Programming Languages: PHP, JavaScript, TypeScript, Python, Java, C++
- Frameworks & Concepts: Laravel, OOP (Object-Oriented Programming), REST API, SDLC, Prototype Model
- Databases: MySQL, MariaDB — schema design & query optimization
- Tools: Git, GitHub, Debugging & Troubleshooting
- Frontend (additional): React, HTML, CSS
